

Consultant Given Notice to Proceed (NTP)

There are a few ways to be awarded a NTP to work on a City of Avondale Capital Improvement Project (CIP). An Engineering Consultant may be selected to work on a CIP project from:

- an RFP or SOQ process, or
- the City Pre-Qualification List

The Pre- Qualification List is updated every two (2) years. The City will begin this process in June 2008 and this will be the next opportunity for applicants to get on the Pre- Qualification List. For more information on the Pre- Qualification List please contact the Engineering Department at 623-333-4200.

For more information on the selection processes, see Chapter 25 of the City of Avondale Municipal Code and reference the “Professional Services Procurement Section.”
